PROFESSIONAL SUMMARY

Creative technology professional with practical experience in Generative AI content production, graphic and packaging design, and front-end development. Creates AI-assisted product videos, promotional ads, brand visuals, and campaign assets for business clients. Builds interactive projects with HTML, CSS, JavaScript, and React, while continuing structured training in broader full-stack development. Has sourced freelance clients through Instagram, LinkedIn, and referrals and is developing an independent creative technology venture.

PROFESSIONAL EXPERIENCE

Graphic Designer & Generative AI Creative — *Jun 2026 – Present | Full-time · Remote*
Naturalize by Dr. Bilquis

- Create graphic design assets, packaging designs, and product sticker designs.
- Develop AI-generated visuals and creative assets for Meta advertising campaigns.
- Support basic video editing, visual framing, and Generative AI content production.
- Collaborate with the team on design and marketing materials; work receives positive internal feedback.

AI Video & Product Advertising Creator — *Jun 2026 – Present | Ongoing*
Extreme Technologies

- Create AI-assisted product videos, product showcases, product advertisements, and campaign creatives.
- Combine multiple generative tools to develop product-focused video concepts and visuals.
- Tools used include Higgsfield, Veo 3, Google Flow, ChatGPT, Gemini, Seedance 2.5, and Omni Flash.

Freelance Generative AI & Design Projects — *Nov 2025 – Present*
Independent clients · Instagram, LinkedIn, and referrals

- Create AI-generated promotional videos, brand visuals, social media designs, advertisements, and campaign assets for clients.
- Created an AI-generated 2D biryani animation for Matco Foods Limited; the brand reposted the work on Instagram.
- Produced realistic-character, motivational and emotional story-based AI videos for international clients.
- Use Warda Visuals (@warda_visuals) to showcase creative work and connect with potential clients.

ENTREPRENEURSHIP

Founder · Pre-launch — *In development*
Drei Solunex Studio

- Developing a creative technology studio planned to offer AI visuals and video ads, graphic design and branding, Meta advertising creatives, and web/AI-related services.
- Studio website and social links will be added after launch; services will expand as development training and practical capabilities progress.
